Composite Decking

Composite decking is perfect for gardens, patios and pool areas. Its recycled wood polymer construction makes composite deck so much more durable than timber. Children, bicycles, barbecues, party-goers, paddling pools or garden furniture. ***It will withstand it all and keep its natural beauty.***

Transform your garden into the favourite part of your home. Composite has natural beauty and the feel of real wood, with a 60% timber content it offers all the benefits of wood without the maintenance.

Deck Boards

Offering defining quality and an unrivalled specification, this advanced deck board is designed to give a premium appearance whilst being engineered to meet your needs for many years of untroubled enjoyment.

180mm x 35mm

Premium EXCEL Polymer Deck Board

A 100% polymer board produced with an advanced engineering grade thermoplastic cap layer giving exceptional weatherability. This board combines multi colour processing technology and a dual wood grain pattern giving excellent slip resistance and an unparalleled natural appearance.

Antique
Woodland Green
Driftwood
Tawny

Beige
Cream

180mm x 35mm

Premium ECO Polymer Deck Board

A 100% polymer board with double credentials, incorporating higher levels of recycled material and a more efficient high grade cap layer, this board provides excellent weatherability and slip resistance whilst having a greener recycled element.

Cedar
Charcoal

150mm x 25mm

Composite Deck Board

Manufactured using a 60% wood 40% polymer mix, this double sided deck board has a traditional lined face and a wood grain patterned side. The material offers greater resistance to rotting and is more slip resistant than wood whilst retaining a natural appearance that will age and fade gracefully but needs no preservative treatment, staining or coating.

OF YOUR INSTALLATION**

Finance Available. Enquire for details.

Handrails

Balustrade and profiles are manufactured using high grade PVCu that offers a class 1 fire rating. As with all our PVCu products, the problems associated with traditional wooden alternatives are removed, leaving the customer with a virtually maintenance free product that is both durable and aesthetically pleasing.

- White
- Beige
- Cream
- Golden Oak
- Rustic Oak
- Dark Green
- Gayle Grey

Handrail Reinforcement

Hallmark handrails are available with a galvanised steel reinforcement option which allows for increased rail spans, improved strength and reduces the possibility of deformation.

Picket Options

The range incorporates a variety of handrail and picket style options to suit every customers design ideas.

Floating Glass in Clamps
Glass is available in clear, grey tint, bronze and blue. Clamps can be colour matched or stainless steel. Our rail heights are British Standard 900mm from flooring.

Contemporary Pickets **Square Pickets** **Diamond Pickets**

All available in all colours

Millboard

Why Millboard Decking?

Moulded from real Oak Millboard is the World's finest wood free alternative flooring. Where even the highest quality hardwood can warp, splinter, rot, fade and lose the original appearance and appeal over time, Millboard is designed to withstand even the most challenging conditions.

Because Millboard's unique Lastane® surface is non-porous and antifungal we can boast the highest antislip rating, ensuring outdoor spaces are safer and will look inviting for years to come.

HD Dual Deck

There are many different types of composite decking on the market and many of them may initially look indistinguishable from one to the next. With no life extending treatments necessary, our low maintenance composite decking offer a durable alternative to traditional timber products.

The main crucial ingredient of wood plastic composite is wood flour. Composite Prime uses FSC® 100% certified wood that traces each species back to the sustainable forest it was sourced from, ensuring the quality of our wood composites because we know the origin and species of tree in our wood flour.

SUSTAINABLE, ETHICAL & RESPONSIBLE
All of our composite decking and fencing products contain a combination of FSC® 100% timber from well managed sources along with recycled plastic. This means our composite decking and fencing are not only high in composite technology, they are also environmentally friendly and sustainable.

You can spread the cost of your installation to suit your needs
